

**2008 Flying H Genetics Grown on Grass Bull Sale**  
**March 15, 2008**  
**Carthage, Mo.**

**51 Total Bulls \$2,226**

A great crowd of cattle producers joined the Flying H Genetics crew at Joplin Regional Stockyards near Carthage, Mo., to evaluate and price the 51 head of Quality Guaranteed Bulls presented in working condition.

This first-ever group of “Grown on Grass” bulls was well accepted with many customers commenting they liked the fact the bulls were muscular, athletic and not fat.

The 43 yearling and eight 18-month-old bulls sold into five states.

Top selling bull at \$5,000 was a Woodhill Foresight-sired Angus bull purchased by Robert Simmons. Gary Endicott selected the top selling Balancer at \$3,500 and the top priced SimAngus went home to Scott Widner for \$3,000.
