Seedstock Plus hosted its second annual Seedstock Plus-Influenced Feeder Calf Sale at Southern Colorado Livestock Market in Monte Vista, Colo. The sale was a success with additional buyer interest and having an additional buyer in Gelbvieh Profit Partners, which purchased two loads of calves.

A total of 600 plus head were sold from customers of Seedstock Plus. The majority of the calves were steers with lot sizes from four to 70 head. Most of the calves were weaned and vaccinated, with a select few source and age verified. Those calves did receive a premium for the additional management practices.

This feeder calf sale is an example of Seedstock Plus' commitment to its bull buyers in southern Colorado and part of the S+ Marketing Assistance Program.
