

SmartCross® Certification

11-4-04

I, the undersigned producer, certify that the calves being delivered under this agreement have met the following requirements to qualify as SmartCross® calves.

1. 75% or more of the calves must be sired by registered Gelbvieh, registered Balancer® or registered Gelbvieh x Angus hybrid bulls out of Angus-based (50% or more of herd is Angus) cows (red or black).
2. Calves must be vaccinated (check one) using one of the following vaccination programs.
 VAC 34
 - Cattle must be vaccinated while on the cow two to four weeks prior to shipping with IBR, BVD, PI-3, BRSV, 7 or 8 way Clostridial and Pasteurella Haemolytica.
 VAC 45
 - Cattle must be vaccinated prior to or at weaning, with IBR, BVD, PI-3, BRSV and Pasteurella Haemolytica and boosted 14-28 days later.
 - 7- or 8-way Clostridial must be given once.
 - Cattle must be weaned a minimum of 45 days prior to shipping.
3. Producers must follow Beef Quality Assurance guidelines by giving all injections in the neck.
4. These calves were born and raised in the USA (to meet Country of Origin Labeling regulations).

Agreement: I attest that the above information is true to the best of my knowledge. While I understand that every reasonable attempt will be made to accurately collect and report information, I agree not to hold the American Gelbvieh Association liable for any lost or incorrect data. I further agree to allow the American Gelbvieh Association to use all information collected.

Producer: _____ **Date:** _____
